

# Threatened Species Day

## Virtual Excursion

Meet the Woodland Scientist Q & A  
backgrounded by a series of information videos  
**Beaming from Bungendore on the Southern Tablelands**  
**7th September 2011**

- **Learn about the endangered woodlands of NSW. (Did you know they stretch all the way down the inland tablelands and slopes of NSW from Queensland to Victoria, are one of the most important ecosystems for agriculture in NSW and in some places less than 10% remains?)**
- **Find out more about Australian plants and animals that rely on woodlands for their survival.**
- **Hear from scientists working with endangered Australian woodland species.**
- **Join in the Threatened Species Day broadcast where our scientists will answer student's questions about threatened plants and animals.**

- The Threatened Species Day Program is structured around a series of short videos to be viewed prior to the excursion. available at <http://gbwcmn.net.au>
- Four scientists talk about their work with threatened woodlands, mammals, frogs and reptiles, flora and birds, why some species are threatened and the sort of actions that can be taken to improve their chances of survival.
  - After viewing the videos students are encouraged to send questions for the scientists about threatened species, to [toni.mcleish@environment.nsw.gov.au](mailto:toni.mcleish@environment.nsw.gov.au) before August 19<sup>th</sup> 2011
- On 7<sup>th</sup> September the scientists will be hosted by Bungendore Public School and will video conference their answers to the student questions via a virtual excursion.
  - To book for the virtual excursion go to <http://dartconnections.org.au/>
- This program will address many parts of the primary and high school curriculum.

Question for a scientist can also be posted

"Meet the Scientist"  
PO box 733  
Queanbeyan 2620 NSW

For more information on woodlands and to link to the scientist's videos go to [gbwcmn.net.au](http://gbwcmn.net.au)
